Tony – To begin the processing of a TA here is some basic information. We do not have deployment manual and planning and logistics have this as a low priority. I am including Wendy in case we can get an agreement with her management to move forward. Tony go ahead and make plans through the 31st with the option of being relieved sooner.

Account code is Nonresponsive if anyone needs help with the account string for TAs, Kendra Wilborn and/or Joe Poetter with EPA Region 8 can assist.

ICP location is 2500 Main Ave, Durango, CO 81301

Apparently lodging is scarce – I will pass along any information I get about possible locations but suggest you begin looking on your own if you have time. Rental car yes.

Johanna

Good all,

Region VII has requested the CISM/PEER Support assistance at the Gold King Mine Site in Durango, CO. I've had a good conversation with Johanna this morning and she expressed her concerns about the members that we deploy. I respect this because it gives me a good

indication as to the culture we are about to embrace.

Region VII would like to have a two man team present as early as Saturday, August 15.
That means someone has to travel today or on the plane Saturday.

Johanna has reached out to two members but I need to check the availability of this group.

Dennis/ Pam- I need for either of you to be able to conduct a short class for the deploying team on "stress related". Johanna feels [

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

Johanna also mentioned that it is a very High stressful place and nobody is talking much. This is the reason why we must be very selective as to the team members who deploy. (I'm not taking nothing away from any CISM team members, but I want to be careful).

Please get back to me and Johanna ASAP.

Thanks to all of you for understanding the need and the will to serve.

If you need to reach me via voice, 202 309 5123 or Johanna, 303 886 1635
